

## PROFILE

Experienced web lead developer based in Sydney, Australia, with a passion for new technology and innovation. A dynamic team player, committed to delivering high-quality solutions in fast-paced environments.

## EXPERIENCE

### Senior Lead Frontend developer ACU

Nov 2023 - Nov 2024

Senior Lead Frontend Developer at Australian Catholic University (ACU):

- Maintained multiple Sitecore 9 websites using jQuery, SASS, and Gulp
- Led modernization of web components with React/Next.js in Storybook for Sitecore 10.3 and Headless CMS transition
- Implemented Storybook deployment pipeline on Azure DevOps
- Collaborated with teams to align frontend development with university's digital strategy

### Web Lead Developer Play Today

Feb 2023 - Sep 2023

As a web lead developer, I specialised in coordinating and guiding development teams in the design, creation, and optimisation of web applications. Combining technical expertise with leadership skills, I ensured that projects were aligned with business goals, maintained code quality standards, and implemented cutting-edge technologies for robust and innovative solutions.

### Full-stack Developer Play Today

Jun 2022 - Sept 2023

I was responsible for designing, implementing, and maintaining both front-end and back-end components of web applications. Utilising a diverse set of technologies, I ensured seamless integration and functionality across all layers of development. My contributions played a key role in setting the foundation for my eventual promotion to web lead developer within the company.

### External contractor Closer Care

Apr 2021 - May 2022

As an external contractor, I created a CMS and Roster handling, collaborating with internal teams to deliver customised solutions. Managed project lifecycles and aligned outcomes with client objectives, streamlining operations.

## EDUCATION

### BACHELOR MOBILE APP DEVELOPMENT AIT SYDNEY

in 2019-2022

Earned a Bachelor's degree in Mobile App Development from AIT, focusing on innovative design and efficient coding for robust and user-friendly applications.

### Higher School Certificate ARISTIDE BRIAND HIGH SCHOOL

in 2004-2006

Completed Senior Secondary Certificate at Aristide Briand High School in France, laying a strong foundation for my future in technology and development.

## PROJECT

### ACU websites

#### Frontend Lead Developer

- Maintained multiple Sitecore 9 websites using jQuery, SASS, and Gulp
- Led modernization of web components with React/Next.js in Storybook for Sitecore 10.3 and Headless CMS transition
- Implemented Storybook deployment pipeline on Azure DevOps

### Play Today. Marketplace

#### Web Lead Developer

Led the development of Play Today Marketplace, a Next.js-based platform focused on the sale of NFTs for golf players. Leveraged cutting-edge technologies to create a seamless user experience, ensuring secure and efficient transactions.

<https://marketplace.playtoday.cc>

### Play Today. App showcase

#### Web Lead Developer

Spearheaded the Play Today App Showcase, a React project designed to present our golf scoring app. Focused on intuitive UI/UX, the platform serves as an interactive portfolio for potential users and stakeholders.

<https://app.playtoday.cc>

### Play Today. Metaverse

#### Full-stack Developer

Contributed as a full-stack developer to Play Today Metaverse, a project that integrates a React front-end with Unity instances. The platform showcases various WebGL builds, offering a unique and immersive experience.

<https://playtoday.cc>

### Play Today. Golf

#### Full-stack Developer

As a full-stack developer on the Play Today Golf project, I was responsible for the wallet section of a React-Native app designed for golf scoring and NFT badges. I implemented features for displaying NFT badges and NFT video purchases on the marketplace. Additionally, I integrated crypto balance tracking and enabled in-app purchases through Transak and Ramp platforms.

### Closer Care CMS

#### External Contractor

As an external contractor, I developed a Next.js-based CMS for Closer Care, aimed at efficiently managing the company's roster. The system streamlined operations, enhancing both productivity and data accuracy.

Project confidential to the company.
